

# KEYLOCKERZ

DROP OFF &  
COLLECTION  
LOCKERS FOR  
KEYS

Use Keytracker's affordable Drop-Off and Collection KeyLockerz within your business to open up additional opportunities whilst also creating a contactless service to keep customers and staff safe

- Implement this simple and easy to use IP65 locker solution to accommodate 24/7 key and other item drop off and collection
- Open up your business to customers who cannot attend during standard working hours
- Remove unnecessary human interaction wherever possible to keep your customers and team safe
- Drastically reduce waiting time, customer dwell time, service department overheads and required service areas
- Rapidly and effectively increase your bottom line and profitability whilst driving business forward
- Use the touchscreen or web software for total administrator control and reporting
- Remotely monitor the system status and locker availability, managing drop off and collection times for an unbeatable customer experience

## FEATURES

- Double skinned steel fabrication
- Weather-proof construction and IP65 rated screen
- HD colour camera for usage recording and QR code scanning for hands free use
- Generate unique pin codes for each locker or assign a random code which is automatically emailed
- Ultra-secure design with concealed hinges and slam latch locking mechanism
- Manual door override option for emergencies
- Easy to sanitise for germ-free use
- Each locker compartment measures 140mm (W) x 110mm (H) x 200mm (D) internally
